

PRESS RELEASE - For Immediate Release

Flagship Investments Limited Fund is officially recognised as a Top Performer in the Best Smaller Fund category for the APAC Investors Choice Awards 2020.

{London, July 9th 2020} The Investors Choice Awards considers all of the 4000+ funds reporting on Allocator, the data platform for the investment management industry. Top Performers for the Investors Choice Awards 2020 were chosen based on their annualised performance compared with their peers over the period January 2019 – April 2020.

Founder and CEO of Allocator, Ryan Kalish commented, “EC. Pohl & Co should be extremely proud of their performance. It was a challenging period for the fund management industry, with wide dispersion of returns amid volatile markets. To be recognised as a Top Performer among their peers is a very impressive achievement.”

Dr. Emmanuel (Manny) Pohl AM, Founder and Managing Director of EC. Pohl & Co also commented, “Being recognised by our industry peers in this fashion is a great honour and a meaningful testimony to the strength of our investment team at ECP Asset Management and their investment philosophy. Our belief in active investing and the absolute importance of fundamentals such as quality of company and the use of a bottom-up style of analysis has enabled us to steer a steady course through volatile times including both the global financial crisis in 2008 and the current Covid-19 pandemic. The lesson is, no matter where fashion or fear takes the market, by staying focused on the basics such as, balance sheet strength, how the business model stacks up against the competition and on the genuine sustainable growth potential for the business, you can and will reap the rewards.”
